Hi Mike,

(b) (6), from Tallulah, LA, called me and said he had not been able to get any cooperation from the LDNR folks on his desire for information about a well near him. He says the well is the Luther Clark Well # 32017, located at 1717 North Quail East. He believes Denbury Resources is the operator.

Can you find out the type of well (oil/gas, vertical/horizontal), how old is it, how deep it is, and whether it is in production?

Then call (b) (6)

He didn't really say what his complaint was about it, just that he couldn't get anyone to tell him anything about it.
